

Manual lowering device

Easy access to controller –
less costly to service

Soft touch paddle controls –
easy to operate if manual
dexterity is an issue

Acme Screw drive with
backup Safety nut. CSA
code compliant

Standard Platform
34" x 54" long

See through mesh platform – no
need for an under-pan sensor so
there no ice and snow build up on
the platform

Zero Load Start ensures that
the breaker will not "pop"
during cold weather.

Small foot print – only 50"
from mast to handrail
